

CHANGES IN THE ATMOSPHERE OR HYDROSPHERE

Name _____ Block _____

List your team members: _____

OBJECTIVE: Changes in the atmosphere or hydrosphere can be caused by natural or human activities.

PROCEDURE: Use your assigned folder to answer the following questions. Be prepared to report on your folder's subject to the class. Everyone in your group **must** have something to say during the presentation!

QUESTIONS:

1. What is your team's assigned topic? _____

2. Is your topic a human activity or a natural activity? _____

3. Describe the event: _____

4. Describe the impact of the event on the atmosphere: _____

5. Describe the event's impact on the hydrosphere: _____

6. Describe the impact of this event on animals, plants, and/or humans.

7. How could this type of event, whether human or natural, could be predicted?

8. How could this type of event be prevented so the impact of this type of event on the atmosphere and hydrosphere could be reduced? NOTE: If you say this can't be prevented, give at least two good reasons why not.
